## ABOUT ME

Hey there, I'm Christian Nathanael Pranata, a proactive Computer Science major passionate about user interface, testing, and debugging. I'm committed to applying my skills to advance a company's mission and showcasing strong team abilities. As a Web Developer, I specialize in designing, installing, testing, and maintaining software systems, proficient in various platforms, languages, and embedded systems. I excel both independently and in team settings, thriving under pressure and turning deadlines into stepping stones for excellence. My adaptability and initiative drive me to embrace challenges, believing they foster growth. I'm not just a member; I'm an initiator, ready to collaborate, spark new ideas, and turn challenges into opportunities for success.
